

## 2004 Healthy Youth Survey Cowlitz County Healthy Youth Survey 2004 Participation Rates

Attached are the Healthy Youth Survey 2004 participation rates for school buildings in Cowlitz County. All participation rates are estimates, based on the 2003 school year enrollments, because 2004 enrollment figures are not yet available.

As you know, low participation rates on the 2004 Healthy Youth Survey can limit the ability to generalize data from the students who took the survey to other students in the county. Whether these data are generalizable depends on how students who took the survey differ from those who did not take the survey. If there are differences between these two groups of students that might affect survey results, you should discuss these differences when using the data.

In general, the following guidance may be used when reviewing your data; however, if important groups of students are missing from your data, there may be limitations even if you have a high participation rate.

## If your participation rates are...

- 70% or greater: Your Healthy Youth Survey results are probably representative of students in this grade in your county.
- 40-69%: Your Healthy Youth Survey results may be representative of students in this grade in your
  county, but further examination of other data (by school or district) to identify any important differences
  between participants and non-participants should be completed before generalizing results to the
  county. Comparisons could be done using information from non-HYS sources such as the census,
  school achievement test results, or other information.
- Less than 40%: Participation rates less than 40% are quite low, and your Healthy Youth Survey results should not be interpreted as representative of the county. They are, of course, representative of the students who took the survey, and may be representative of sections of your county.

## **Participation Summary for Cowlitz County**

Cowlitz County had the following student participation rates by grade:

Grade 6: 76% Grade 8: 83% Grade 10: 73% Grade 12: 54%

These participation rates were calculated by dividing the number of valid surveys by the number of students enrolled in public schools in your county, based on final 2003-2004 school year enrollment figures available at <a href="http://www.k12.wa.us/dataadmin/">http://www.k12.wa.us/dataadmin/</a>. Surveys that were dropped during cleaning are included with non-participants. However, this shouldn't dramatically affect the participation rates. The attached spreadsheet showing the participation rates for each school may help you figure out which students in your county these data describe best.
